formula 126

silk restoring treatment

linden series | clean, soft, fresh textile care

Formula 126 is intended to be used after garments are drycleaned. Formula 126 eliminates streaks and swales from silks and other light weight fabrics. Restores original luster and sheen to silks. No mixing required, ready to use. Helps cover up color loss from spotting.

directions for use

1. Pull the finished silk load from the reclaimer/cleaning machine.
2. While hanging the load up, inspect for those silks requiring Formula 126 treatment...and lay those silk garments to the side.
3. Separate light silks from the dark silks.
4. Saturate the garment with Formula 126 in a clean, covered container.
5. Remove the garment and place into the drycleaning machine. Lightly extract and cool dry at approximately 120°F.
6. Proceed with the next silk using the same procedures.

For professional drycleaning or laundry use only.
