formula 18

textile freshener | odor eliminator

linden series | clean, soft, fresh textile care

Formula 18 is an extremely effective textile freshener and odor eliminator. Formula 18 is effective on many odors including bacterial odors and smoke. Formula 18 minimizes the need for ozone treatment and imparts our signature **freedom fresh**™ scent.

directions for use

In Perc Or High Flash Hydrocarbon Solvent For Smoke: Add 1 oz. for every 10 lbs. of load during the last cleaning or rinse cycle. For fragrance effect and to treat bacterial and musty odors: Add ¼ oz. (1 capful) for every 10 lbs. of load during the cleaning cycle or the last rinse cycle. Minor adjustments up or down may be necessary based on personal preference.
For Spray Applications (Curtains/Furniture/Carpets) Mix 1 part Formula 18 and 8 parts water in a spray bottle or tank and apply as needed for desired effect.

For Laundry Or Wetcleaning Use Add ¼ oz. of Formula 18 for every 10 pounds of load on the final rinse.

Method of Addition Formula 18 can be added into the button trap, directly into the wheel (before adding clothes), pumped into the wheel via product addition pump or added to a product addition hopper. When any of these methods are chosen it is important to note that the Formula 18 should be added to the last batch of solvent or water that the load is exposed to, and for product addition pumps or hoppers, programming changes may be necessary to activate.

Tips When Using Fragrance There are many variables that can affect the amount of fragrance left in textiles, therefore addition rates may need to be adjusted up or down to personal preference levels. The amount needed to simply add a subtle fragrance will be significantly less than what might be needed for a severe fire load.

WARNING

HAZARD STATEMENTS

May cause eye or skin irritation.

PRECAUTIONARY STATEMENTS

Wear protective gloves and eye protection. Wash thoroughly after handling.

FIRST AID

Eye Contact: Check for and remove any contact lenses. Flush with large quantities of water, holding eyelids open for 15 minutes. Seek medical attention if symptoms persist. Skin Contact: Wash skin with copious amount of water. Seek medical attention if symptoms persist. Inhalation: Remove to fresh air. Seek medical attention if symptoms persist. Ingestion: Do not induce vomiting. Drink copious amounts of water. Seek medical attention immediately.

STORAGE

Store in original container protected from sunlight in a well ventilated area, away from incompatible materials, food and drink. Keep out of reach of children.

SPILL /LEAK

Put on appropriate personal protective equipment. Move container from spill area. Dilute with water and mop up if water soluble or absorb with an inert dry material and place in an appropriate waste disposal container.

DISPOSAL

Dispose of material in accordance with local, state and federal regulations.
