

# formula 613

powdered | laundry stain remover

**linden series** | clean, soft, fresh textile care

**Formula 613** is a one step stain remover that can be used either to re-claim white linen in the commercial laundry wash wheel or as a pre-soak stain removing activator for difficult-to-remove stains. It'll revitalize your linen and reduce linen replacement costs. When used at a properly controlled rate, **Formula 613** does not reduce tensile strength of common fabrics such as cotton, polyester and blends. **Formula 613** is not for use on delicate fabrics such as wool and silk.

## directions for use

Formula 613 is for industrial use only. As a general guide, use 2 - 3 lbs. of Formula 613 for every 100# textiles. Consult your Santec technical representative for specific use directions.

### DANGER
