momentum detergent™

concentrated built detergent

linden series | clean, soft, fresh textile care

Momentum Detergent contains a combination of a high concentration of NPE Free emulsifiers with high levels of alkalinity and silicated alkalis make it a great one shot product for accelerated cleaning of mixtures of oily and particulate soils common in personal clothing and mixed loads treated in institutional laundries. It is also very effective for personal clothing in on premise laundries and ideally suited for hospitality linen in hotels.

directions for use

Momentum Detergent is for industrial use only. It should be used in a wash formula specifically designed to meet the needs of your facility. Consult your Santec technical representative for specific use directions.
