

oxygenTM
fruit | vegetable wash

element series consists of specialty products formulated to offer effective and safe solutions for customers' unique cleaning needs. For each solution developed another 'element' is added to the series. Providing our customers with the right solution for each task.

Oxygen is formulated to remove pesticides, chemicals, waxes, dirt, fingerprints and other contaminants from the surfaces of fruits and vegetables. Many contaminants such as pesticides and waxes are hydrophobic and insoluble in plain water. The combination of emulsifiers, organic acids and hydrogen peroxide in Oxygen facilitate the removal, suspension and thorough cleaning of these and other contaminants from the surfaces of fresh fruits and vegetables making them 100% safe and edible.

features

- A safe-for-human fruit and vegetable wash formulated with emulsifiers used in vitamins and other human ingested pills, an organic acid found naturally in many citrus fruits and hydrogen peroxide at levels used safely in antiseptics.
- Synergistic blend of surfactants, organic acids and peroxide enhances ability to thoroughly penetrate, dissolve, clean and suspend extraneous substances returning fruits and vegetables to their natural pristine and safe state.
- Designed to be safe on virtually all types of produce including firm produce like apples, pears, peppers and carrots, and softer produce like grapes and broccoli.

optimal applications

Supermarkets, cafeterias, restaurants, catering halls, nursing homes, hotels, motels, hospitals.
