

**seventeen**  
encapsulated machine dish detergent

**resolve series** represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

**Seventeen** is a premium phosphate free dish detergent solid in a capsule. It is formulated as a heavy duty combination of alkaline builders, organic polymeric compounds that effectively complex hardness ions, soil suspending polyacrylates, non-foaming detergents.

### features

- A versatile product that cuts and removes dried-on foods, grease, oil and other food soils on glassware, china, plastic, cutlery, and pots and pans. Do not use on aluminum, zinc and other soft metals.
- Generates no foam that can interfere with accuracy of dishwasher's operation.
- Organic polymer blends that effectively condition and soften water in place of the environmentally problematic and popular phosphates.
- Contains a special polymer that decreases precipitation and adherence of inorganic salts to glass surfaces thereby eliminating 'spotting' of glassware.
- Performance and rinsibility are unaffected by water hardness. Contains water softeners that reduce formation and build-up of scale and scum in jet sprays and other surfaces of dishwashing machines.

### ideal for

Glassware, steel cutlery, pots and pans, porcelain, plastics.

### optimal applications

Restaurants, cafeterias, schools, hospitals, kitchens, hotels, motels, nursing homes and other food service establishments.

environmentally preferred
