

swift detergent

heavy duty | built detergent powder

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

Swift Detergent is a heavy duty commercial laundry detergent powder that can be used as a stand-alone product to effectively remove grease and oil and other heavy soils from all soil classifications.

features

- A unique blend of anionic and nonionic emulsifiers, alkalis, builders, water softeners, soil suspending agents and optical brighteners.
- Powerful and stable combination of strong alkalis with detergents, water softeners and soil suspending agents makes it effective as a stand-alone product without the need for a separate alkaline builder product.
- Extremely effective at cleaning heavily soiled coats and aprons common in food and beverage industry.
- Performance and rinsability unaffected by water hardness.
- Water conditioning agents help prevent redeposition of soils onto fabrics.

directions for general use

For normal soils use 8 to 16 oz. Swift per 100 lb. load. For heavier soiled loads and to optimize use levels for your specific needs contact your Santec technical representative.

optimal applications

Commercial laundries, institutional laundries, health care facilities, hotels, motels and nursing homes.
