

# twenty nine

conveyor lube + burnishing compound

**resolve series** represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

**Twenty Nine** is a dual purpose product. As a conveyor lube it's a concentrated chain lubricant suited for conveyors in all food and beverage processing plants. As a burnishing compound it's very effective in cleaning and burnishing a wide variety of metals while offering some corrosion protection; because of its mild nature it's ideally suited for fine silverware in commercial kitchens.

## Features

- A great coconut and plant based conveyor lube that effectively reduces drag and friction on all moving parts, thus extending life of conveyors, motors and related equipment, and reducing down time.
- Safe on all metals, unaffected by water hardness, soils, or temperature.
- Recommended for lubricating conveyor chains and belts in meat, poultry, bakeries, beverage, breweries and other food processing plants where there is no deliberate contact of the product with foodstuffs.
- A superior, yet economical burnishing compound effective on steel, zinc, copper, brass, aluminum and other alloys.
- An excellent burnishing compound to use with Adamation-type silverware burnishers.
- All ingredients are biodegradable; contains no phosphates.

## Ideal For:

Conveyor chains, belts, guides and gears, burnishing machines.

## Applications:

Bakeries, meat, poultry, fruit juice and other food processing plants, breweries, wineries, dairies, commercial and industrial kitchens.

## product specifications
